

Whidbey Camano Land Trust Property Information

The Whidbey Camano Land Trust's mission is to protect our islands' most important natural habitats, scenic vistas, and working farms in partnership with landowners and the larger community. Because there are so many wonderful places in Island County, far more than we can work on at any one time, the Land Trust must carefully consider each project on a case by case basis. If you, as a landowner, neighbor, or other interested third party, would like us to consider a property, we ask that you fill out the information below to the best of your ability. This information will help us in our initial review of the protection opportunity. For more information about the types of projects the Land Trust is involved in please visit our website at www.wclt.org.
